CARES

## HUMAN VS COVID19

TOGETHER IN BATTLING THE VICIOUS COVID19

The year 2020 started with a staggering opening. The coronavirus disease first began in Wuhan, China, in December 2019. As of April 27, 2020, the outbreak of the coronavirus disease (COVID-19) had spread to six continents, with 2,916,338 confirmed cases, and had killed approximately 207,254 people.

During this heartbreaking time, humanity is all we got and even the smallest action matters. Everyone must help and support one another. Kokola feels that as part of this humanity, we must do something. Therefore, at the beginning of March, Kokola donated biscuits to the Health-care helpers of Hubei Directly Affiliated Organs' Hospital, who were fighting this war at the frontline.

Instead of stopping, the pandemic continue to spread widely to other countries. On January 30, 2020 the first case was found in Philippines, and up till now there have been 8,212 confirmed cases of the disease in the country.

Then on Mar 2, 2020 it reached Indonesia. The high population density in Indonesia also did not help the effort to contain the virus. Within 2 months, The Health Ministry announced on April 20, 2020 that total number of infections nationwide reached 9,800 and counts.

Other than directly affecting the health of many people, this vicious virus has affected other aspects of people's lives. Many industry sectors are suffering and many employees are laid off. As a result, many were jobless and struggling to make ends meet. In this circumstances, Kokola would like to help relieve some of the hardships of the people affected. Bulk of biscuits were donated to those who need.

We believe that a little happiness can help us go through the hardest time. And by sharing happylicious to the world, Kokola hopes everything will get better soon. **#KokolaCares.**
